## Course Overview

In today's turbulent business environment, leaders must focus on driving their organizations through challenges while making informed decisions on strategy, succession planning, and leveraging intellectual capital. This Art of Strategic Management and Leadership training course equips leaders with the skills to develop and implement effective strategies and to master the people management and leadership skills needed to achieve organizational success.

The course is divided into two modules: Strategic Planning and Execution and Mastering People Management & Team Leadership. Participants gain practical insights, contemporary theories, and actionable techniques to create value, lead change, and enhance organizational performance.

## Course Objectives

**By the end of this course, participants will be able to:**

- Expand understanding of strategic thinking and its application in modern organizations.
- Understand the strategy formation and implementation process.
- Link organizational strategy to outcomes such as revenue, profit, and growth.
- Recognize organizational change needs and lead transformations effectively.
- Demonstrate leadership skills including communication, inspiration, systems thinking, and emotional intelligence.
- Apply personal influence and political savvy for effective networking.
- Implement change management models for communicating and executing change.
- Maximize productivity and performance of team members.

## Target Audience

- Professionals engaged in strategic planning.
- Managers leading organizational change initiatives.
- Leaders responsible for resource optimization and team performance.
- Executives seeking to enhance leadership, strategic thinking, and organizational impact.

## Methodology

The course combines interactive lectures, group discussions, team exercises, and case studies. Practical exercises and video sequences are used to reinforce concepts and ensure participants can apply skills effectively in real-world settings.
