

Course : Setting & Controlling Budgets

City :	Dubai	Hotel :	Atlantis The Palm
Start Date :	2025-11-24	End Date :	2025-11-28
Period :	1 Week	Price :	3950 \$

Course Overview

Setting and controlling budgets accurately and effectively is fundamental to every successful business. This Budget Setting and Control program demonstrates how budgeting is intrinsically linked to strategy, costing, and performance measurement.

The course simplifies complex budgeting terminology and methodologies, providing participants with a clear understanding of managerial accounting and performance measurement in practice.

In today's dynamic corporate environment, the training goes beyond traditional financial budgeting, offering a comprehensive learning experience that integrates economic and operational perspectives.

The program aims to enhance participants' proficiency in budgeting and cost control.

Participants seeking to refine their budget management skills will benefit from practical insights and the latest methodologies.

The course ensures the ability to align budgets with strategic objectives and organizational performance goals.

Course Objectives

At the end of this budget setting and control course, the participants will be able to:

- Link finance and operation for budgeting purposes and strategy execution.
- Learn how to build a comprehensive performance measurement system.
- Develop an understanding of the corporate budgeting process.
- Interpret the financial impact of strategic directions.
- Understand the problems of overhead allocation and how Activity-Based Analysis may aid decision-making and pricing strategies.
- Understand the budgeting methods most beneficial to them.
- Understand how to construct a relevant and efficient budget.
- Evaluate the usefulness of costing techniques in accurately calculating and ensuring profitability.
- Reinforce and expand their knowledge by linking budgeting to strategy and performance measurement.
- Expand their understanding by linking financial and operational issues.
- Learn to be aware of the non-financial implications of budgeting.

The Setting & Controlling Budgets training seminar is designed for professionals across corporations, government entities, and other organizations. While it is particularly beneficial for financial analysts, controllers, accountants, and departmental managers involved in planning and budget preparation, it is equally valuable for business professionals in diverse functions, **including:**

- General Management
- Estimating & Costing
- Operations
- Facilities Management
- Sales & Marketing
- Quality Management
- Engineering
- Project Management
- Procurement
- Logistics
- Research & Development
- Asset Management
- Human Resources

Methodology

Individuals with varied experience and knowledge are encouraged to share their own experience and consider alternative approaches introduced during the training seminar. Formal presentations will be supported by numerous worked examples, the use of real-world scenarios and group discussion. In this supportive and interactive workshop environment, your Instructor will facilitate team case studies and exercises that will reinforce the hands-on application of each of the learning points and topics covered.

Difficult mathematical concepts are minimised wherever possible and handled in a visual and user-friendly way – our aim is for this to be an enjoyable learning experience.
