## Course Overview

In order to make better business decisions, decision makers need to understand the fundamentals of budgeting and costing. This training course has been devised to give business decision makers a good understanding on budgets, cost controls, variances and associated analysis that will lead to better decisions being made & better results being attained.

The Effective Budgeting & Cost Control training course will clarify budgeting terms; clearly explain the methodology used and cover both traditional & non-traditional budgeting methods through to newer methods and approaches. We will take the same approach with all elements of costing.

## Course Objectives

- Understand the fundamentals of budgeting and costing
- Clarify budgeting terms and concepts
- Explain budgeting methodologies clearly
- Cover traditional budgeting methods
- Cover non-traditional and newer budgeting approaches
- Analyze cost controls and variances
- Enable better business decision-making
